

Testimonials for Children using the Feldenkrais Method®:

"I've seen improvement in all areas of my son's life. He's climbing on things. He wants to hang on the bars at the playground now..." Mother of preschooler.

"...Thank you for all that you have done for my boys over the last two years. Your patience, determination, expertise and support have been a tremendous help to me and my family. As we continue on our journey we will remember how fortunate we were to have you join us for a part of it...."

Marla (5 and 8 year olds)

"Since you started working with him, he seems calmer and he listens better."
-Mother of 10 year old.

"How come you got my son to start crawling in two weeks when other therapists have tried for six months and haven't been able to do it?"

Mother of 15 month old.

"...Thanks a ton for all your help with my son this year. He has gotten a lot calmer and attends a lot better which, I believe, is largely due to his increased body awareness from his OT sessions...."

Mother of 3 year old
